

Restricted Retail Commercial (CRR) Zoning Standards Planning Commission/Property Owner Workshop

October 10, 2006

5:30 to 6:30

WORKSHOP

I. Introduction of Commissioners & Staff

II. Staff Presentation

A. History:

- In 2001, the City adopted an updated General Plan.
- The General plan included a Land Use designation titled "Non Retail Commercial."
- The 2001 General Plan Land Use Map designated 64 properties (previously designated as Commercial) as "Non Retail Commercial."
- The 2001 General Plan defined the "Non Retail Commercial" land use as follows:

Non-Retail Commercial. This designation applies to 36 acres along Monterey Road between Llagas Road and Tennant Avenue. The Non-Retail Commercial designation is intended to focus service and office uses away from major intersections where the Commercial designation encourages higher traffic generating retail uses. It also accommodates mixed-use development (residences above shops) to help create a market for local stores and neighborhood atmosphere in the downtown.

- Fifty seven parcels are currently zoned General Commercial CG, and 7 are zoned Office Commercial CO.
- The City has yet to adopt a zoning designation which defines the "Non-Retail Commercial" land use designation. Sixty four properties currently do not have defined development standards or uses. The proposed CRR zoning district would implement the existing General Plan designation.

B. Purpose of proposed CRR District and Definitions of Uses

The purpose of the Restricted Retail Commercial CRR, zoning text is to provide the 64 "Non-Retail Commercial" properties with use and development standards including standards for mixed use residential development.

The purpose of the workshop is to allow the Planning Commission to discuss with the affected property owners the proposed CRR text.

Subject: ZONING AMENDMENT, ZA-06-03: CITY OF MORGAN HILL-RESTRICTED COMMERCIAL RESIDENTIAL ZONING DISTRICT.

REQUEST

A request for approval of an amendment to Chapter 18.04 Definitions and the addition of Chapter 18.23 CRR, Restricted Commercial Residential district to the Morgan Hill Municipal Code. Also requested is the amendment of the zoning designation on 57 parcels from General Commercial CG, to Restrictive Commercial CRR, and 7 parcels from Administrative Office CO, to Restrictive Commercial Residential district, CRR.

RECOMMENDATION

Actions were reviewed as part of Master Environmental Impact Report for the 2001 General Plan update.

Application ZA-06-03

Recommend City Council approval, of the proposed Restricted Commercial zoning text as shown in Exhibit A of the attached resolution.

Recommend City Council approval of the proposed amendments to the zoning definitions Chapter of the Municipal Code as shown in Exhibit A of the attached resolution.

Recommend City Council approval of the proposed zoning map amendments as shown Exhibits A & B of the attached resolution.

BACKGROUND

In July of 2001, the City of Morgan Hill adopted a new General Plan Land Use Element which contained a new land use designation titled Non-Retail Commercial. The General Plan Land Use map (see attached) applied the Non-Retail Commercial designation to properties on the east and west sides of Monterey Rd. south of Biscaglia Ave. and north of West Edmundson Ave., and on the east and west sides of Monterey Rd. in the area north of Central Ave. and south of the Railroad over crossing.

The following paragraph from the General Plan Land Use Element describes the Non-Retail Commercial land use designation:

Non-Retail Commercial. This designation applies to 36 acres (*) along Monterey Road between Llagas Road and Tennant Avenue. The Non-Retail Commercial designation is intended to focus service and office uses away from major intersections where the Commercial designation encourages higher traffic generating retail uses. It also accommodates mixed-use development (residences above shops) to help create a market for local stores and neighborhood atmosphere in the downtown.

* Note that the actual acreage designated Non-Retail Commercial on the General Plan Land Use map totals 43 acres.

Since 2001, the Planning Division has not accepted applications for retail uses on parcels within this portion of Monterey Rd. The lack of clarity for what is and is not allowed has been identified as an Economic Inhibitor.

PROJECT ASSESSMENT

Zoning Text: The Non-Retail Commercial land use designation is a new land use designation which has yet to be defined by a corresponding zoning classification within the City's Municipal Code. Staff has drafted a new Section titled CRR, Restricted Commercial Residential district to be inserted within Chapter 18 Zoning, of the Morgan Hill Municipal Code. The purpose of the new section is to define the uses and development standards for the Non Retail Commercial land use designation. In drafting the new zoning text, it has been staff's goal to create a zoning text that is clear, flexible and reflective of the Non Retail Land Use definition in the General Plan. The following is a list of the permitted and conditional uses proposed for the CRR zoning.

Proposed permitted uses are as follows:	Proposed conditional uses are as follows:
<ol style="list-style-type: none"> 1. Arts and crafts gallery 2. Antiques/vintage goods and collectables store 3. Business support services 4. Catering services 5. Commercial indoor recreation 3000 sq. ft. or less. 6. Commercial services 7. Home Daycare, large or small 8. Financial service 9. Medical/Dental clinic and office 10. Office, administrative 11. Office, professional 12. Personal service 13. Pet grooming 14. Public facilities 15. Restaurant, fast food with no drive-thru component 16. Restaurant, sit-down 17. Retail, extensive 18. School, business, trade, or tutoring 19. Social services 20. Residential use in a mixed use development 	<ol style="list-style-type: none"> 1. Club, lodge or private meeting hall. 2. Commercial Recreation (indoor) 3001 sq. ft. or greater. 3. Commercial Recreation (outdoor) any size. 4. Convenience market 5. Daycare center for adults or children 6. Emergency shelter/transitional housing facility 7. Funeral facility and services 8. Kennel 9. Lodging facilities 10. Mini storage 11. Motor vehicle repair (minor) 12. Quasi-public use 13. Restaurant, fast food with drive thru component 14. Theaters 15. Veterinary clinic or hospital 16. Any permitted or conditional uses which have an outdoor display or storage component. 17. Any other use which the planning commission finds will be similar in nature to the permitted uses and conditional uses specified in this chapter for the CRR zoning district.

The majority of the "Permitted Uses" proposed are office type uses such as financial services, professional/administrative offices, social services and medical offices. Several of the proposed "Permitted Uses" may have a retail component but primarily the use is service oriented. For example a cell phone store (defined as a Commercial Service) may sell cell phones and accessories, but the primary business is the calling service. A salon (defined as a Personal Service) would provide hair styling services but may also sell hair care products. Some full retail type uses are proposed but have been selected due to their low trip generation rates and due to these type uses being less likely to locate in a regional or community shopping center. For example, an antique store or a gallery would be retail uses but they do not generate the same traffic as a chain retail store or a retailer who markets a variety of high demand, mass produced retail goods. Low trip generation rates also apply to the proposed Extensive Retail uses such as furniture stores, appliances stores and flooring stores. Extensive Retail uses typically deal in bulky items and are a type of retail use that is sought out by consumers on an infrequent basis. Restaurant and fast food uses have high trip generation rates but have been added to the list of permitted uses because they are supportive of the residential component of the Non Retail Commercial land Use designation, and there are a good number of existing restaurant and fast food uses located in the subject area. With the exception the restaurant and fast food uses, the proposed "Permitted Uses" for the Restricted Commercial Residential district zoning are ones which are less dependent or desirous of locating in regional or commercial shopping centers.

The majority of the Non-Retail Commercial land use parcels back to existing residential areas. The Non-Retail Commercial land use definition also allows for residential uses to be constructed as "Mixed Use" projects. Uses proposed as "Conditional Uses" are uses that have components that may have the potential to impact adjacent uses. For example, a veterinary hospital may have an outdoor kennel area that may create noise concerns. An outdoor recreation use may have lighting impacts and funeral homes and lodges may have large parking demands or operational characteristics that should be reviewed and conditioned to ensure compatibility of land uses.

As previously mentioned, the Non-Retail Commercial land use designation allows for residential units to be constructed as part of a "Mixed Use" project. The General Plan however does not specify a density for the residential component. The residential density proposed for the CRR zoning district is 8-18 dwelling units per acre. This density is the same as the "Mixed Use" density currently applied to the downtown CC-R zoning district. If densities are increased in the downtown, the CRR zoning district currently proposed on the north and south sides of the downtown area will provide a feathering effect for the densities of the two adjacent "Mixed Use" zoning districts. The residential standards within the proposed text includes the density standard of one dwelling unit per 2,400 sq. ft. and a restriction that requires residential development to be allowed only as part of Mixed Use development, which also requires the approval of a PUD.

The General Plan's description of Non-Retail Commercial includes the example of "(residences above shops)" for mixed use development which might suggest vertical mixed use development. However, the depth (200 ft.+) of some of the Non-Retail Commercial properties warrants consideration of both horizontal and vertical mixed use development through the PUD process. The PUD process would allow the City to consider appropriate layouts for individual properties.

The Non-Retail Commercial land use designation as defined within the General Plan includes site development standards for minimum lot area (6,000 sq. ft.), maximum building coverage (50%) and maximum building height (35 ft.). A deviation to the maximum building height is proposed within the CRR zoning text, which would allow up to 45 ft. if the extra 10 ft. is devoted to a roof element. This same deviation was included in the CC-R zoning standards and was later clarified with the General Plan document. The proposed CRR setback standards have been fashioned after the CC-R zoning district with the exception of the front setback requirement. The CC-R zoning district allows for a 0 ft. front setback. The proposed CRR zoning requires a 15 ft. front setback which will provide a subtle transition from the 0 ft. setbacks in the downtown. To mitigate potential impacts to adjacent residential development, the proposed CRR site development standards require the installation of a six foot wall or fence and a 10 ft. wide landscape buffer adjacent. The proposed buffer would require parking areas and drive aisles to be located further from adjacent residential uses.

Prior to completing the proposed draft ordinance, two workshops were held with property owners who have parcels designated as Non-Retail Commercial by the 2001 General Plan. The primary concern expressed by the property owners at the workshop was the loss of retail uses from what the General Commercial district allows. Currently, 57 of the 64 affected properties had Commercial land use designations and General Commercial zoning. The owners felt that the elimination of the retail uses was an economic inhibitor and placed their property at a significant disadvantage to other commercial properties. Many property owners believe that the elimination of the retail uses currently allowed by the General Commercial zoning de-values their properties because they will not

the able to compete with other General Commercial properties that allow all of the same uses proposed in the CRR zoning plus all other retail uses. Several owners suggested that the General Commercial zoning text be modified to eliminate offices and personal services from the CG zoning as a way to carry out the General Plan goal of concentrating retail at major intersections and increasing the pool of potential tenants for building owners within the CRR zoning district. Some of the property owners recognized that the ability to develop residential units (which is not allowed in the CG district) was an enhancement to their property value.

The owners of the previously designated Office Commercial properties saw the proposed CRR zoning as a positive since it significantly increased the potential uses, but also agreed that the elimination of retail uses creates a disadvantage for attracting potential tenants.

Some property owners suggested that the non-retail commercial lands use designation should be removed and no new zoning district created (i.e. leave General Commercial). Other property owners suggested that the proposed CRR zoning allow for a certain percentage (25%-50%) of a building to have retail uses. This could be implemented by adding as a permitted use, "Retail, not to exceed 25 percent of the square footage of a structure". Another suggestion was to allow retail uses with the approval of an administrative use permit.

A letter from the owner of the existing Johnson's Funeral Home (attached) was submitted to the City requesting that funeral homes be allowed as a permitted use rather than a conditional use under the proposed CRR zoning. Currently the Johnson's Funeral Home is an existing legal non conforming land use that cannot be expanded under the current General Commercial CG, zoning designation because the current CG zoning does not allow funeral homes as a permitted or conditional use. The proposed CRR text would conditionally permit funeral homes thus providing an avenue for possible future expansion through the conditional use permit process. The need to obtain a conditional use permit would only be triggered by a proposal to expand or intensify the existing funeral home. As mentioned earlier in the report, funeral homes are proposed as a conditional uses because there could be components that might have the potential to impact adjacent uses. For example, funeral homes may have large parking demands or operational characteristics that should be reviewed and conditioned to ensure compatibility of land uses.

Zoning Definitions: Chapter 18.04 of the Municipal Code currently contains definitions of land uses listed within the Zoning Chapter. As part of drafting the text for the CRR zoning district, staff saw a need to add new definitions and amend existing definitions to provide clarity for the permitted and conditional uses listed within the zoning text. For example, the zoning definitions section as currently written did not include definitions for Commercial Services, Business Support Services, Lodging Facilities, Mixed Use, Funeral Homes and Kennels. Several existing definitions are recommended for modification to provide additional clarification of the anticipated uses. For example, the Commercial Recreation Definition has been split to define Indoor and Outdoor Commercial Recreation separately. The current definition for Professional Offices included doctors so it was not distinguishable from the Medical Office definition. New and more concise definitions are proposed as part of Exhibit A of Zoning Definition Resolution. Definitions to be eliminated are shown in ~~strike-out~~ text and new or revised definitions are shown in ***bold italic highlighted*** text.

Zoning Map Amendment:

State law requires that the City's zoning designation on a property be consistent with its General Plan. Along with creating the CRR zoning classification, the zoning designation on properties designated as Non-Retail Commercial by the General Plan are proposed to be amended to be consistent with the adopted General Plan land use diagram. The zoning map amendments shown on Exhibits A & B of the Zoning Map resolution are same properties currently designated as Non-Retail Commercial in the General Plan.

CONCLUSION

It is recommended that that Commission review and recommend City Council approval of the proposed Restricted Commercial Residential zoning text which is necessary to implement the Non-Retail Commercial land use designation within the 2001 General Plan. It is also recommended that the Commission review and recommend Council approval of new and revised zoning text definitions which are intended to added clarification to the permitted and conditional uses listed within the various zoning districts. Zoning map amendment is also recommended to bring the zoning designation on the 64 properties into compliance with the 2001 General Plan Land Use Map.

Dear Terry,

I appreciate the opportunity to review the proposed zoning changes and updates. I will be unable to attend the Planning Commission meeting this evening. However, I would ask your consideration on the following items.

1. I would like to recommend some lot size flexibility and setback flexibility in each proposed zoning district that allows high density or mixed use projects. For Example, Section 18.25.060 1,2,and 3 allow for very large minimum lot sizes for high density residential uses. The lot sizes are more appropriate for commercial uses. You may need greater flexibility in lot sizing if residential uses are allowed on the ground floor area, or are placed in the rear of deeper properties.
2. I would recommend additional language in the zoning text to allow specific variation for the residential uses through the PUD or RPD process. Especially in regards to lot sizes and setbacks.
3. Section 18.25.060 B. calls for the use of "a solid wall or fence of six feet in height A minimum 10' wide setback area shall be planted and maintained as a landscaped screen/buffer." You may want to make exceptions to this text which will not require this setback or solid wall in the case where residential housing in the Commercial District abuts residential zoning districts. Both residential uses adjacent to each other would not require additional setbacks or walls.

Thank you for your time and consideration.

Sincerely,

Scott Schilling

Dear Planning Director:

Regarding the proposed change in zoning for APM 726-24-013, 014, I generally approve of the concept and I thank you for our phone conversation regarding the placing of the funeral home in a permitted use since the funeral home has been in use since 1935. Also it is a very low retail business, not like others mentioned in my copy. It also seems to fit very nicely in the mix as none of the new business that came after seem to mind. So at this time, I am requesting that it be placed as a permitted use. If you have any questions or comments and if I can be of help, please call or write.

Thank you for your time regarding this matter.

Respectfully.

Attention to the planning commission: This letter is to protest the decision on the city of Morgan Hill the decision to change the zoning on my property above from general commercial zoning to a non retail commercial zoning text amendment chapter 18.23 on June 6, 2006, I attend the work shop and I listen to all their proposal changes and I rise my concerns that my lot is very small it is only 14,664 square feet and with the proposal changes I couldn't do much building and my property will be directly affected and will lose value and interest from any buyer or investors. I urge the board to take my concerns and adopt some exclusion in a small parcel like mine or do something so we won't be left out empty handed. If they approve it the changing zoning.

Thank you, for your attention on this matter.
